

COMOTION

YOUR INNOVATION PARTNER

CoMotion is UW's collaborative innovation hub dedicated to expanding the global economic and societal impact of the UW community. CoMotion guides and partners with faculty, researchers, students, and entrepreneurs on their path to market, and helps them amplify the impact of their ideas.

**IP ADVISING,
PROTECTION,
& LICENSING**

We guide UW researchers, faculty, and students on their path to potential license, startup, or direct-to-user.

- Access to expertise, resources, and programs.
- Advise on and protect IP that can support greater impact of UW research.
- Best practices to get to market for you and your team.

**INNOVATION
TRAINING**

We deliver just-in-time learning opportunities for all types of innovation.

- Build an entrepreneurial mindset for the UW community.
- Support UW researchers gaining insight into industry and customer needs.
- Company-building skills for startups from seed to scale.

**FUNDING &
PARTNERSHIPS**

We provide connections to mentorship, funding, and networks to improve commercialization success.

- Connections to company builders, industry expertise, gap funding opportunities, and external partnerships for:
- team building
 - licensing
 - angel and venture capital investment
 - startup grant support

**STARTUPS
& INCUBATION**

We support startup creation, launch, and incubation.

- Wraparound services to support startup success including training, mentoring, networking, and space across a variety of industries.
- Access to investment and funding opportunities.
- Streamlined licensing with transparent and fair terms.

COMOTION LEADERSHIP

François Baneyx is the director of CoMotion and Vice Provost for Innovation at the University of Washington. He is the Charles W.H. Matthaei Professor of Chemical Engineering and an adjunct professor of bioengineering. François is also the director of the Center for the Science of Synthesis Across Scales, a multi-institution Energy Frontier Research Center funded by the U.S. Department of Energy.

"We at CoMotion are passionate about partnering with the UW community to bring life-changing innovations to market. It's all about making a positive impact in the world to support UW's mission of advancing the public good."

François Baneyx
Director, CoMotion
Vice Provost for Innovation
