IMPORTANT NOTE:

PLEASE READ THIS PACKET THOROUGHLY!

This packet contains all the information necessary for applying to the Innovation Gap Fund. Our process is unique in that we require you to submit a number of deliverables throughout the application process. We also provide mentorship and opportunities to receive feedback from a number of experienced entrepreneurs and investors. These advisors can assist you with the deliverables.

Completing all of the required deliverables and submitting them through our database is mandatory. Only those teams who submit the appropriately completed deliverables on time and have followed all of the directions will be able to proceed to the Final Reviews.

Our process is administered through the “CoMotion Advisory Solutions” Chronus database, an online system. Thus, we require teams to complete or update a profile in the database. Mentor connections and all deliverables must go through the database. We will not accept deliverables via email. If, at any time, you experience difficulty with the database, please contact the Innovation Investments team as soon as possible (cmifund@uw.edu). To avoid issues, we suggest submitting your deliverables in advance of a deadline.

Detailed instructions for all steps in the process are included in this information packet. Please keep it handy, as you will need to refer to it throughout the application process. An electronic copy (PDF) can also be found in the “Reference Library” section within the Connection Plan. Good luck!
FALL 2020 KEY DATES

Please hold these dates on your calendar

In order to comply with State and University guidelines regarding social distancing, all CoMotion Innovation Gap Fund activities will be held remotely unless otherwise specified.

DECLARATION: Unless otherwise indicated, all steps are mandatory and the deliverables will be used when evaluating whether or not a project should receive funding.

OVERVIEW

The CoMotion Innovation Gap Fund is a partnership between CoMotion and the Washington Research Foundation to provide up to $1 million per year for applied research. Our mission is to fund and support projects that have a high chance to have impact but are unlikely to get there without additional funding. The Innovation Gap Fund program is intended to help technologies get across the “valley of death” between the conclusion of academic research grants and the level of development at which they can attract seed stage investment. Funding is intended to provide a proof of concept.

Successful projects have used funds to:
- create prototypes
- complete software coding or user interface development
- initiate Beta testing
- research customer demand
- research and validate markets

This RFP also contains information for submitting an application for WE-REACH. The goal for WE-REACH funding is to make technologies more clinically viable through regulatory, reimbursement, intellectual property, and market analysis effort. Successful applicants should already have a proven proof-of-concept and early exploration of the market including an understanding of the customer. WE-REACH funding is NOT a research grant. While some process or product refinement may be funded, your application should focus on explaining how these funds would improve your chances of success in delivering your product or therapy to clinical practice. Please see https://www.washington.edu/we-reach/funding_resources/we-reach-application/ for more information on the program and eligibility.

Get Funded and Get Full-scale Support from a Team of Experts

Innovation Gap Fund awards are up to $40,000 per project, with an additional $10,000 reserved for business development milestones. In addition, we will help assemble a support team of business, IP, technical, and startup experts.

Disbursement and Use of Funds

Funds are awarded to researchers for direct project costs for up to 12 months. Applications are accepted each year in the Spring and Fall. Following approval, funds are awarded on a milestone-based schedule worked out with your Innovation Manager, if applicable, and the Innovation Programs team. We strongly encourage you to use funds for product development and marketing purposes. No basic research will be funded. UW Principal Investigator salaries
Eligibility

- Projects must be disclosed to CoMotion.
- A proposal must have an eligible UW Principal Investigator (PI) or fiscal PI.
- If the Team Lead is not the same as the UW fiscal PI, please contact cmifund@uw.edu for instructions.
- A Team Lead may submit only one application per round.
- The Fiscal PI does not have to be the lead name in the database profile.

Evaluation Criteria

A final review committee of CoMotion and WRF staff, senior executives, and local investors will rank projects by market drivers and the likelihood that Innovation Gap Fund funding will influence the probability of success.

IMPORTANT INFORMATION REGARDING FOLLOW-ON FUNDING

If you previously received an Innovation Gap Fund award from CoMotion, you may submit an application for follow-on funding within up to 3 funding cycles of your award start date. Please contact the Innovation Gap Fund team (cmifund@uw.edu) prior to submitting a Declaration of Intent, as you may be eligible to bypass several steps of the standard application process.

ADDITIONAL OPPORTUNITY FOR BECU FINTECH INNOVATION GAP FUND AWARD

In October 2018 CoMotion partnered with BECU, Washington’s largest community credit union, to create a fintech hub in the Seattle region. The technology strengths and resources of greater Seattle and the UW ecosystem make a powerful combination that is poised to build the next generation of financial services innovations. In addition, the roll out of public ledger (blockchain), cryptocurrencies, and smart contract-enabling platforms by cloud and enterprise software providers is timely for engaging the best minds to focus on financial services innovation.

The BECU partnership will co-fund two awards for this funding cycle. Teams submitting proposals for the BECU fintech track will be required to complete the same application milestones and deliverables as other applicants to the Innovation Gap Fund. BECU reviewers will evaluate the final pitch and application materials.

The BECU fintech track is open to faculty as well as postdoctoral fellows, graduate and undergraduate students. Students and postdocs MUST identify a faculty fiscal sponsor.

To apply for the BECU fintech track, select “Innovation Gap Fund BECU fintech track, Fall 2020” when submitting your Declaration of Intent.
APPLICATION PROCESS
PART 1

Apply for Innovation Gap Fund at a future cycle

Disclose your technology to CoMotion

Meet with your Innovation Manager to discuss applying.

Ready to apply?

Yes

Submit a completed profile in the database: (uwcomotion.chronus.com), Select “Innovation Gap Fund, FALL 2020” as the program you are applying for.

Advisors and teams will be matched through the online database

Submit Lean Canvas via the database

Submit Customer Discovery List and Survey Questions via the database

Attend Pitch Practice Session

Submit Customer Surveys Summary and Revised Lean Canvas

Submit Full Proposal via the database

Hold dates for Round Robin Feedback Sessions, Pitch Practice Sessions, and Final Reviews on all team members’ calendars, and let Innovation Gap Fund team know ASAP if you anticipate any scheduling conflicts

Attend the Customer Discovery Workshop, based on the successful NSF Innovation Corps (I-Corps) methods of accelerating the translation of university engineering research to the marketplace.

OPTIONAL: Life Sciences Technologies are strongly encouraged to contact cmifund@uw.edu to set up a DDAC meeting prior to submitting full proposal.

(Continued on next page)

OPTIONAL: Talk with your Innovation Manager about enrolling in an upcoming Innovation Workshop: From Idea to Plan.

OPTIONAL: Attend Customer Discovery Workshop (see page 8). Email cmifund@uw.edu for more information.

OPTIONAL: Attend Fundamentals for Startups Fridays events at the CoMotion Incubator

Attend Round Robin Feedback Sessions

OPTIONAL: Attend Fundamentals for Startups Fridays events at the CoMotion Incubator

Attend Round Robin Feedback Sessions

(Continued on next page)
APPLICATION PROCESS

PART 2

Pitch to Final Review Committee

Project funded?

Yes

Schedule kickoff meeting with CoMotion Innovation Gap Fund team. Funds will not be released until milestones are approved.

Funding tranche released

On schedule for milestone completion?

Yes

Request new deadline for completion of current milestone, as well as any extensions for subsequent milestones as needed.

No

Submit progress report to cmifund@uw.edu once milestone completed. Progress report must be approved by your Innovation Manager, if applicable, and the CoMotion Innovation Gap Fund team in order to release additional funds.

Final milestone, including Business Development, completed?

Yes

Submit final progress report AND a revised copy of your Lean Canvas to your Innovation Manager, if applicable, and the CoMotion Innovation Gap Fund team.

No
APPLICATION MATERIALS

*Some of the processes and forms have changed. Please review the application process before submitting any documents.*

Forms included in this packet are for example only. Forms can be downloaded via the CoMotion Advisory Solutions Chronus database within your Connection Plan:

[https://uwcomotion.chronus.com/](https://uwcomotion.chronus.com/)

**Lean Canvas** – Due Wednesday, September 16\(^{th}\) at 5pm via the online database

**Customer Discovery Worksheet** – Due Friday, September 25th at 5pm via the online database

**Pitch Template (See Resources)** – For Pitch Practice Sessions (October 5, 7, 13, and 16) and Final Reviews (November 3\(^{th}\), 4\(^{th}\), and 5\(^{th}\))

**Customer Survey Summary** – Due Friday, October 16th at 5pm via the online database

**Full Proposal: Application Form, Executive Summary, Required Supplemental Materials, Revised Lean Canvas, and Readiness Assessment** – Due Tuesday, October 20th at 5pm via the online database
DECLARATION OF INTENT (DATABASE PROFILE)

FALL 2020 Declarations of Intent are accepted on a rolling basis until Friday, August 21st at 5pm. The required DOI is a completed profile in the CoMotion Advisory Solutions database (https://uwcomotion.chronus.com/) and select “CoMotion Advisory Solutions Program: What specific program are you applying for?: “Innovation Gap Fund, Fall 2020,” “WE-REACH, FALL 2020,” or “Innovation Gap Fund BECU fintech track, Fall 2020.” Please note—applications for WE-REACH and Innovation Gap Fund are mutually exclusive. Please read the WE-REACH RFP, available at https://www.washington.edu/we-reach/funding_resources/we-reach-application/, thoroughly to determine if you are at the appropriate stage to apply, or contact cmifund@uw.edu for assistance.

If you already have a profile in the database, you will need to login and edit your profile and select “CoMotion Advisory Solutions Program: What specific program are you applying for?: Innovation Gap Fund, FALL 2020” or “WE-REACH, FALL 2020.”

If you do not have a profile in the database, you will need to create one:
https://uwcomotion.chronus.com/

PLEASE DO NOT USE YOUR UW NETID WHEN CREATING YOUR PROFILE. The email address associated with the profile will be the main point of contact during the Innovation Gap Fund process. This should belong to the PI or Team Lead. Some teams find it useful to set up an external email account (gmail, yahoo, etc...) which all team members have access to. A team will have only one profile (account) in the database regardless of whether the PI sets up an external email or uses a UW email address. The login password can be shared so team members can have access to the database.

To create your profile in the database, select “Join” in the upper right corner, then select “Team.” When completing your profile, be sure you select “CoMotion Advisory Solutions Program: What specific program are you applying for?: “Innovation Gap Fund, Fall 2020,” “WE-REACH, FALL 2020,” or “Innovation Gap Fund BECU fintech track, Fall 2020.” The Innovation Gap Fund team will approve your profile before you can access the database.

Please complete your profile to the best of your ability.

If you have any trouble accessing the database, or questions about this process, please contact cmifund@uw.edu.
In order to help with customer discovery, we will be holding a Customer Discovery workshop which we *strongly* encourage you to attend. Our workshop is based on the successful National Science Foundation Innovation Corps (I-Corps) methods of accelerating the translation of university engineering research to the marketplace.

Registration for the workshop will be accepted on a first come, first served basis. Once the date has been decided upon, we will notify all of our applicants. Please contact cmifund@uw.edu for information on registration.
ROUND ROBIN FEEDBACK SESSIONS/Orientation to Chronus Connection Plan (OPTIONAL)

The CoMotion Innovation Gap Fund team will host 2 Round Robin Feedback Sessions following the submission of your Declaration of Intent. Your team PI is strongly encouraged to attend one of these sessions.

**PLEASE NOTE: There is limited space for these events, so teams will be scheduled on a first-come, first-serve basis. Teams must commit to attending for the full 3-hour session.** These sessions will be an excellent opportunity for you and your team to meet a variety of mentors and to learn about how the Lean Canvas can prepare you for success. Even if you are already working with a business mentor, these sessions and the mentors can provide different perspectives as you fine-tune your business case.

Mentors will come from a variety of backgrounds and sector areas. They all have experience with entrepreneurship and startup companies. If you choose to participate, we expect you will get valuable feedback to assist you as you think about commercializing your technology.

The Round Robin Feedback Sessions are offered two different times to facilitate your attendance. The sessions will take place remotely. Multiple mentors will be present to work with you as you think about your Lean Canvas. You will have 20 minutes per mentor. Please email cmifund@uw.edu to confirm when you will be able to attend. This will help us ensure that there will be enough mentors available for all participants.

Attendees may also receive a brief introduction to the CoMotion Advisory Solutions Connection Plan, the system we use to guide you through the Innovation Gap Fund process.

CUSTOMER DISCOVERY LIST AND SURVEY QUESTIONS

Due Friday, September 25th (5pm).

Obtaining customer feedback is a vital part of validating the market need, identifying early adopters, and determining potential buyers. As part of the Innovation Gap Fund application, you are required to collect customer feedback.

The Customer Discovery Worksheet deliverable is comprised of 3 parts:

   a. Ecosystem Map—See example in Figure below.
   b. Customer List—Provide the customer’s name, company, job title, and category. Identify no fewer than 15 potential customers you plan to contact.
   c. Customer Interview Guide—Identify the customer segment, the key hypothesis you will test, and the key questions you will ask.

Submit by uploading your Customer Discovery Worksheet into the online database.

1. Sample Ecosystem Map for a CT Scanner
2. **Customer List--Identify your customers.**

   > Differentiate “User” (those who use your product) vs. “Customer” (those who pay for your product)
   >   – If different, you need to understand what’s important to each

   > Identify your target audience
   >   – Ideally target experienced users
   >   – Understand their role
   >   – Interview demographic mix
   >   – Know about the company you are talking with

   > Identify who you would want to contact—minimum of 15 names

   > Be resourceful
   >   – Use your personal network
   >   – Use LinkedIn
   >   – Use social media
   >   – Where does your target audience “gather” (electronically or real world)
   >   – Don’t worry about geography

3. **Customer Interview Guide—develop interview questions.**

   REMEMBER: Your job is not to validate your product. Your job is to validate the problem and how to best solve it.

   Your customer is a human being. Try to understand their needs, fears, frustrations, and motivations so you can craft an offering they will value.

   - Who is involved with this solution/process? How long does it take?
   - What is their state of mind when doing this task? How busy/hurried/stressed/bored/frustrated?
   - What are they doing immediately before their current solution/process?
   - How much time or money would they be willing to invest in a solution that made their lives easier?
   - How is your customer currently dealing with this task/problem?
   - What do they like about their current solution/process?
   - Is there some other solution/process they’ve tried in the past that was better or worse?
   - What do they wish they could do that currently isn’t possible or practical?
   - If they could do [answer to the above question], how would that make their lives better?
   - Develop open ended questions to engage the customer to provide insight.

| What          | • What problems have you experienced?  
|               | • What drives you crazy about your job (market problems)  
|               | • What neat products have you seen lately (technology assessment)  
|               | • What do you think of my company and product (distinct competitiveness)  
| How          | • How do you use...?  
|              | • How do you prepare...?  
| Why          | • Why is that?  
|              | • Why do you do that?  
|              | • Why do you...?  
| Who          | • Who do you listen to for market trends (market research)  
|              | • Who are my competitors and what do you think of them? (competitive analysis)  
|              | • Who else is affected by this?  
| Could        | • Could you give me an example?  
|              | • Could you walk through...?  

More examples:
• Tell me more about that.  
• When does that happen?  
• In what situation does this happen?  
• Tell me about the last time you dealt with this.  
• If you had a magic wand what would you do or change?

Avoid:
Closed ended questions that prompt yes/no response
  – “Do” you think this is a problem?  
  – “Are” you going to...”  
  – “Can” you do this...?

Leading questions
  – If this is done this way... will it satisfy your needs?  
  – Don’t you think this is better than others?

Biased questions
  – We are thinking about this idea, what do you think?
1. **Ecosystem Map**

   Provide an ecosystem map for your technology below. You may hand-draw, scan, etc. Feel free to use an additional page if the space below is insufficient.
### 2. Customer List:

<table>
<thead>
<tr>
<th>Name</th>
<th>Company</th>
<th>Job Title</th>
<th>Category <em>(Ex.: User, Influencer, Recommender, Design Maker, Economic Buyer, Saboteur)</em></th>
</tr>
</thead>

PITCH PRACTICE SESSIONS (REQUIRED)

The CoMotion Innovation Investments team will host 4 Pitch Practice Sessions. The audience will consist of various mentors and CoMotion Staff. Feedback from the audience will help you to prepare your presentations for the Final Reviews. **Your Team Lead is required to attend at least one of these sessions.**

Use the provided Pitch Template (see Resources) as a guide for preparing your presentation. Teams will have 10 minutes to pitch their projects, followed by 15 minutes of discussion and Q&A.

**PLEASE NOTE: Teams will be scheduled on a first-come, first-serve basis. Please email cmifund@uw.edu as soon as possible with your top THREE preferred slots to schedule a 30-minute timeslot for your team.**

Please email cmifund@uw.edu to schedule a 30-minute timeslot for your team.

CUSTOMER SURVEY SUMMARY AND REVISED LEAN CANVAS

Due Friday, October 16th, 5pm. Complete the Customer Survey Summary (see p. 22) with responses from the customers you contacted. Submit the Summary and a revised Lean Canvas via upload to the database. You must include feedback from at least five customers.

Customer Interview Tips:

- Don’t start out talking about your idea
- Your potential customer should do most of the talking
- The more real examples and stories you can hear about, the better
- Always ask “Why?”
- Understand how they’re currently solving their problems
- Take this opportunity to gain some market intel about how they interact with the market or buy products now
- Practice your interviews
- You can’t outsource it!
- This is not a focus group
- Founders do it best
- Design pass/fail tests to validate hypotheses
- Be assertive
- Outside the US, be aware of local cultural norms

Post interview:

- Create a format for notes and put them all together
- After a few interviews, read through the notes for patterns
- Listen carefully to the market, but don’t be discouraged by negative feedback
- It’s about trends, insights and building a network
- Send a note thanking them for their time.
- Remember, business is a 2-way street
  - If it makes sense in the context of the discussion, share something of interest with them (ex. “given our discussion, I saw this article you might find interesting”)
- Ask if you can follow up when you’ve refined concept
- Keep in touch
- Build a list of contacts, it will be your target marketing list in the future

UW CoMotion Innovation Gap Fund Application Form

Full Name ________________________________________ Rank ____________________________
EID ______________________________________________ Box Number _________________________
Department __________________________ E-mail _________________________________
Phone _______________________________

Project Title (Please limit to 120 characters)

Abstract for Proposed Research (Please limit to space provided)

If the answer to any of the following is YES, use reverse side to explain. Where appropriate, include indications of approval. Submission to the appropriate approval committees is not necessary until after an award is made.

YES  NO
☐  □ 1. Has the work that is the subject of this proposal already been disclosed to UW CoMotion? If YES, please list the name of the Innovation Manager in UW CoMotion: ________________________________
☐  □ 2. Is the work that is the subject of this proposal related to an existing license, industry agreement or relationship?
☐  □ 3. Will the project require additional space?
☐  □ 4. Will the proposed project be conducted off campus?
☐  □ 5. Does the proposed research involve: radionuclides__; x-ray__; pathogenic organisms__; human or animal blood__; cell, tissues, body fluids__; recombinant DNA__; chemical carcinogens-mutagens-teratogens__; diving__?
☐  □ 6. Does the proposal involve the use of human subjects?
☐  □ 7. Does the proposal involve the use of animals?
☐  □ 8. Is more than one department, school or college involved in the proposal?
☐  □ 9. Is an interdisciplinary facility or service center involved?
☐  □ 10. Are researchers or facilities at another university, government agency, or other institution involved?
☐  □ 11. Will restrictions on information or security classification be required?
☐  □ 12. Are any special resources required, e.g., expanded library services or materials, purchase of special services?
☐  □ 13. Does the proposal represent a continuation of work previously or currently supported by other funding?
☐  □ 14. Have you previously submitted a proposal to the Royalty Research Fund generally? If so, when?
☐  □ 15. Have you previously submitted a proposal to the CoMotion Innovation Gap Fund specifically? If so, when?

<td>Full prototype of system tested in relevant model of full operational environment (real world application).</td>
</tr>
<tr>
<td>TRL7</td>
<td>Full prototype of system tested in operational environment (real world application).</td>
</tr>
<tr>
<td>TRL8</td>
<td>Fully developed product, fully integrated into expected real world application, testing of system completed.</td>
</tr>
<tr>
<td>TRL9</td>
<td>Fully tested product, fully integrated into real world application, successful market introduction.</td>
</tr>
</tbody>
</table>

#### Commercialization Readiness Level (CRL 1-9):

<table>
<thead>
<tr>
<th>CRL1</th>
<th>Knowledge of applications; use-cases &amp; market constraints is limited and incidental; or has yet to be obtained at all.</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRL2</td>
<td>A cursory familiarity with potential applications; markets; and existing competitive technologies/products exists. Market research is derived primarily from secondary sources. Product ideas based on the new technology may exist but are speculative and unvalidated.</td>
</tr>
<tr>
<td>CRL3</td>
<td>A more developed understanding of potential applications; technology use-cases; market requirements; and a familiarity with competitive technologies and products allow for initial consideration of the technology as a product.</td>
</tr>
<tr>
<td>CRL4</td>
<td>A primary product hypothesis is identified and refined through additional technology-product-market analysis and discussions with potential customers and/or end users.</td>
</tr>
<tr>
<td>CRL5</td>
<td>A deep understanding of the target application and market is achieved; and the product is defined.</td>
</tr>
<tr>
<td>CRL6</td>
<td>Market/customer needs and how those translate to product needs are defined and documented (e.g. in market and product requirements documents).</td>
</tr>
<tr>
<td>CRL7</td>
<td>Product design is complete.</td>
</tr>
<tr>
<td>CRL8</td>
<td>Customer qualifications are complete, and initial products are manufactured and sold.</td>
</tr>
<tr>
<td>CRL9</td>
<td>Widespread deployment is achieved.</td>
</tr>
</tbody>
</table>

**Management Readiness:**

- Inventor has previous experience with startups. **YES / NO**
- Inventor is recognized in field. **YES / NO**
- Inventor is willing to champion technology. **YES / NO**
- Experienced management team in place. **YES / NO**

**Management roles required:**

**Management Readiness:** Team has plan for follow-on funding, either dilutive or non-dilutive. **YES/NO**

Describe current funding strategy. **_______________________________________________________________**

EXECUTIVE SUMMARY

The deadline for submission of the Full Proposal for the Fall 2020 round of the CoMotion Innovation Gap Fund is **Tuesday, October 20th at 5:00pm**. Please submit application documents via Chronus.

**PLEASE LIMIT YOUR EXECUTIVE SUMMARY TO NO MORE THAN 3 PAGES, INCLUDING FIGURES AND TABLES.**

**A LIST OF REFERENCES WILL NOT COUNT TOWARDS THE PAGE LIMIT.**

Pages in excess of the limit will be removed and not circulated to reviewers.

**Formatting requirements for the Executive Summary and References:**

Font: Must be 11 points or larger. Type density must be no more than 15 characters per inch. Type may be no more than six lines per inch. Use at least half-inch margins (left, and right). Do not change top and bottom margins. Fonts for figure legends must be nine points or larger, and figures MUST be legible.
EXECUTIVE SUMMARY GUIDELINES

- **Overview:** Give a clear and concise overview of what your innovation is and why the reviewers should be interested in learning more.
- **Problem & Solution:** Describe the solution that your innovation will deliver and the value that it offers to the customer. Don’t go overboard in describing the technology at the expense of adequately addressing the business opportunity.
- **Market:**
  - Describe minimal viable product.
  - Describe the market you will target.
  - Summarize customer feedback.
- **Competition & Differentiation:**
  - Who/what are the competitors in this space?
  - What differentiates you from the rest of the companies competing against you for market share?
  - How is the market fragmented and who are the big players?
  - Traction
- **Intellectual Property:**
  - Describe the intellectual property landscape.
- **Regulatory & Reimbursement (if applicable):**
  - Include a plan with a clear path to clinical approval and payment.
- **Management Team:**
  - Briefly list team members.
  - Why are they the best possible team to achieve the next value-added milestone?
  - Identify key hires that could complete the team.
- **Technical Plan:** With each milestone, include an argument for how it will add value.
  - Milestone 1 and associated activities
  - Milestone 2 and associated activities
  - Milestone 3 and associated activities
- **Needs/benefits of Innovation Gap Funding, including a plan to attract follow-on funding**

FINAL REVIEWS

Audience:
CoMotion and WRF staff, senior executives, and local investors.

Review Criteria:
Projects will be ranked against others (Life Sciences or Engineering/Technology) based on the teams’ understanding of market drivers, competition, and how Innovation Gap Funding will influence the impact of their innovations.

HELPFUL LINKS

PROGRESS REPORT FORM
PITCH TEMPLATE
(Updated 8/3/20)
The following topics should be covered in your presentation although the order and time spent on each is at your discretion. Prepare for a 10-minute pitch with 15 minutes of discussion.

NO SLIDES will be allowed. You will be allowed a single-page (one-sided) handout to use to illustrate 2-3 key concepts from your presentation. Please distribute this to the audience at your presentation.

Introduction & Team (15-45 seconds)
- In a few sentences, explain your technology/innovation and introduce your team.

The Problem (30 seconds – 1 minute)
- Describe the qualitative and quantitative view of the problem. Using a story or scenario is helpful.
- Describe any disruption in market that might provide an opening for your technology

The Solution (1-2 minutes)
- Describe the product or service you envision.

Benefits (1-2 minutes)
- Describe the benefits of the solution and how it addresses the problem/opportunity you have presented.

Traction (60-90 seconds)
- Do you have a prototype? Completed solution? Describe where the technology is in its development.
- Patents filed
- Signed contracts with partners, if any. Customers if any.

Market Size (30 seconds)
- How large is the addressable market?
- How is the market segmented?

Go to Market plan (30 seconds)
- What is your strategy to engage and sell to your prospective customers?
- Who are the decision makers and influencers within your prospect customer and how will you reach them?

Competition (30-60 seconds)
- Describe direct and indirect competition
- Highlight your differential advantage

Need for and Use of Innovation Funding (30 seconds)
- What still needs to be done after this funding to get to license or to market?
- Discuss key milestones that funding will be used for
- How will spending the money advance commercialization?

SUBMITTING YOUR DELIVERABLES VIA THE COMOTION ADVISORY SOLUTIONS DATABASE

1. PIs/Team Leads: Log into your account at [http://uwcomotion.chronus.com/](http://uwcomotion.chronus.com/)

2. You should see “My Connections” at the top of the page. Be sure “Plan” is selected.

3. Scroll down until you see “Visit Connection,” and click the link.

   You are only seeing recent tasks. To view all your tasks, [Visit Connection](http://uwcomotion.chronus.com/).
4. You will be taken to your full connection plan. Find the task to which you will be submitting your deliverable and select it. You should see the following to the right of the page. Click the paperclip to attach your file:

![Mid-point checkpoint](image)

5. Choose “Browse” to find your Deliverable document, then attach with “Add.” Enter a new comment into the comment field as well.

6. If successful, the attachment will appear as a new comment. Check the box next to “Deliverable Due” and you’re done!
