HOME FOR STARTUPS, ENTREPRENEURS, INNOVATORS, AND ARTISTS

CoMotion Labs provides a multi-industry labs system hosting startups inside and outside the UW community in IT, engineering, life sciences, medical devices, clean tech and AR/VR. CoMotion Labs removes barriers and increases connections to ensure startups’ optimal success in taking their innovations to impact.

WHAT WE OFFER

SPACE
- Desks & Offices

- Research Partners
- Investors

LEARNING
- Startup Sessions
- Workshops
- Bootcamps
- Special Topics

SERVICES
- Advisors
- Business Coaching
- Preferred Vendors
- UW Cost Centers

OUR SPACES

We average between 60 to 90 startups in our incubators at any given time. Three are located on or near the UW campus with an additional virtual lab based in Spokane. Startups range from pre-seed to Series A, employing 2 to 15 people each, and are headed by students, faculty, and community leaders, with both new and seasoned entrepreneurs represented.

WHY WE ARE UNIQUE

It’s the connections with the UW and the service we provide that set us apart. As part of the University of Washington, you’ll have access to thousands of first-rate minds doing cutting-edge research in hundreds of fields. We’ll plug you into Seattle’s thriving innovation community with our CEO roundtables, CoMotion Advisory Network and free workshops on everything from customer development to financing.

We also provide access to the CoMotion MakerSpace where startups can build and prototype their innovations. And since we operate on a sustainability model, instead of a profit model, our rates are affordable, so you can hire more staff. (And you keep all your intellectual property and equity!)
